U.S. PERT. - CONTRICTURE

FEDERAL MILK ORDER MARKET STATISTICS

NOVEMBER HIGHLIGHTS

MINIMUM CLASS I PRICE, \$9.00; BLEND, \$8.59

PRODUCER DELIVERIES DOWN 2.9 PERCENT

PRODUCER MILK USED IN CLASS I DOWN 1.0 PERCENT

69 PERCENT OF DELIVERIES USED IN CLASS I

IN-AREA SALES DOWN 1.7 PERCENT

TABLE OF CONTENTS

Table	No.	Page No
	Summary	3
	Major order actions, November	6
1.	Federal order fluid differentials, December 1973 and January 1974; minimum Class I prices for milk of 3.5 percent butterfat content f.o.b. market or other indicated point, and butterfat differentials, December 1972 and 1973; and Class I price, January 1973 and 1974	7
2.	Federal order minimum Class and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, November	8
3.	Federal order minimum Class I and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, January-November averages	10
4.	Number of producers delivering milk to handlers regulated under Federal orders, total deliveries, and average daily deliveries per producer, November	12
5.	Producer milk deliveries used in Class I and gross Class I sales by handlers regulated under Federal orders, November	14
6.	Producer milk deliveries to handlers regulated under Federal orders and deliveries used in Class I, January-November	16
7.	Whole milk, lowfat and skim milk items sold in marketing areas defined by Federal milk orders, for markets where such information is available, October 1973, with comparisons	18
8.	Daily average sales of individual whole milk items, lowfat and skim milk items, in 57 selected marketing areas defined by Federal milk orders, January 1973 to date	20
9.	Packaged sales of milk and cream mixtures, cream items, yogurt, and eggnog by handlers regulated under Federal order markets, Jamuary 1973 to date, with comparisons	23
10.	Percentage of whole milk equivalent used in the production of manufactured dairy products, in 57 selected Federal order markets, January 1973 to date, with comparisons	24
11.	Federal order base and excess prices for milk of 3.5 percent butterfat content, November	25
12.	Seasonal incentive fund included under various Federal milk orders, November	25
13.	Filled milk sales in Federal milk order markets, January 1973 to date, with comparisons	25
14.	Dairy product prices and manufacturing milk prices used in Federal milk order pricing formulas, January 1973 to date, with comparisons	26
15.	U.S. milk prices and general price measures, January 1973 to date, with comparisons	27
16.	Retail prices paid by consumers for dairy products, United States, January 1973 to date, with comparisons	28
17.	Prevailing prices paid by consumers for the most common grade of whole milk and skim milk, 23 cities, November 1973, with comparisons	28
18.	U.S. production, January 1973 to date, with comparisons	29
19.	Commercial and Government storage holdings, January 1973 to date, with comparisons	29
20.	U.S.D.A. purchases (Delivery basis). January 1973 to date, with comparisons	29

O TISTIC STA MARKET ORDER MILK FEDFRAL

Summary of prices, deliveries, and deliveries used in Class I

* Percentages were reported incorrectly in the April through September 1973 issues.

1/ Percentages computed from unrounded pounds.
2/ Excludes Austin-Maco. Fewer than three handlers.

1/ In-area sales represent total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handler in-area sales are partially estimated.

2/ Plain, flavored, and fluid equivalent of concentrated.
3/ Plain, flavored, flavored skim and part skim milk, and buttermilk.
4/ Excludes the New York-New Jersey, Fort Smith, and Western Colorado markets.
5/ Percentages based on the same number of comparable markets in both years.
6/ Adjusted to eliminate variations in data due to calendar composition.
7/ Data for February 1972 adjusted to a 28-day basis before computing percentage changes.

8/ Excludes the Mississippi market which was terminated May 1, 1973.

9/ Estimated.

MAJOR ORDER ACTIONS, NOVEMBER 1973

Amendments:

Central Illinois - November 1 (38 FR 27053, 9/28/73). In determining the pooling performance requirements for a pool distributing plant the receipts at the plant should exclude transfers of fluid milk products to other pool distributing plants which have not been specifically designated as Class II, and include all Grade A milk transferred from other pool plants.

A cooperative association is now designated as the <u>handler</u> for the milk of producers (nonmembers as well as members) that (a) is moved from the farm in a tank truck under the control of the cooperative association for its account for delivery to a pool plant, or (b) the cooperative diverts from a pool plant to a nonpool plant.

A cooperative association also is authorized to collect money for and make payments to nonmember producers for which the cooperative acts as a handler as long as the nonmember has authorized the cooperative to do so.

Wichita - November 1 (38 FR 26707, 9/25/73). A cooperative can divert up to an amount of milk equal to total producer milk received at all pool plants from the cooperative during the month. A pool plant operator can divert up to an amount equal to total nonmember producer milk received at the plant. In order to qualify for diversion, a producer must deliver at least 15 percent of his milk to a pool plant during the month. Any milk diverted is to be priced at the location of the plant to which it is diverted. The order is also amended to allow diversion of manufacturing milk to other order plants as long as a Class II or III classification is designated, and it is not pooled under that order. Class II and III milk diverted from another order and subject to pricing under that order shall not be considered producer milk under this order.

Continued on page 30

Table 1.—Pederal order fluid differentials, December 1973 and January 1974; minimum Class I prices for milk of 3. spercent butterfat content, f.o.b. market or other indicated point* and butterfat differentials, December 1972 and 1973; and Class I price, January 1973 and 1974.

^{*} All prices are weighted.

1/ See footnotes on table 2 for location at which price is reported.

2/ Markets under regulation on January 1, 1972, and which have had no significant marketing area expansions. Excludes Mississippi and Lake Mead.

^{3/} Data for 1973 represent the period January through April; data for 1972 represent the period January through November.

L/ Excludes Austin-Waco. Fewer than three handlers.

5/ Includes data for the Mississippi market for the periods January through April of 1973 and January through November of 1972.

^{1/} In-area sales represent total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handler in-area sales are partially estimated.

2/ Plain flavored and fluid equivalent of concentrated.

3/ Plain, fortified, and flavored skim and part skim milk, and buttermilk.

1/ Data for February 1972 adjusted to a 28-day basis before computing percentage changes.

5/ Figures are adjusted to eliminate variations due to calendar composition. See special article in FMOS - 158, February 1973.

6/ Small amount of sales estimated.

1/ "Dairy Price Support Activity Report," ASCS. 2/ U.S.D.A. purchases (delivery basis) of butter, cheese, and evaporated milk, minus U.S.D.A. domestic sales for unrestricted user of butter and cheese; includes purchases under price support. Section 7/00 and Section 32 programs

includes purchases under price support, Section 709 and Section 32 programs.

3/ Includes 31,128 thousand pounds of instant nonfat dry milk. 4/ Includes 68.069 thousand pounds of instant nonfat dry milk. 5/ Includes 105 million pounds of evaporated milk and 807 million pounds of dry whole milk. 6/ Includes 205 million pounds of evaporated milk and 1,190 million pounds of dry whole milk.

MAJOR ORDER ACTIONS, NOVEMBER 1973 -Continued from page 6

Wichita -Con.

In order to qualify as a pool plant the <u>pooling percentage</u> requirements for route dispositions of a distributing plant are based on the total receipts of producer milk at the plant plus milk diverted. The basis for supply plant qualifications also should include milk which is diverted.

Automatic pool plant status is granted in January through August to <u>supply plants</u> that qualified during each of the preceding months of September through December.

The percentage of total production of member milk of a cooperative which is received at pool plants during the month in order to qualify the <u>cooperative's balancing plant</u> as a pool plant, is reduced from 60 to 50 percent.

A cooperative association is now designated as the <u>handler</u> on all producer milk (a) moved from the farm in a tank truck under its control for its account for delivery to a pool plant, or (b) that the cooperative diverts to a nonpool plant.

The cooperative also is authorized now to collect money for and make payments to nonmember producers if the nonmember has given the cooperative such authorization.

The requirement that a handler must have paid his producers for the preceding month in order to have his report included in the current month's uniform price computation is removed from the order.

Termination:

Great Basin - November 6 (38 FR 30533, 11/6/73). All of the provisions of the order that apply to a vendor as a handler are terminated.
